

The Mi Chair is an exceptionally stylish, beautifully proportioned meeting and conference chair. Bruce High designed the Mi Chair to have a high-back or medium-back, 5 star swivel base on castors, 4 star swivel on glides, (both with optional auto-return) as well as an elegant cantilever option.

The Mi Chair has unlimited upholstery options and the ability to powder coat the arms and base. This ability to change the finish of the metal parts means the Mi Chair can be use alongside many of the Cambridge Park table ranges.

All these options allow the Mi Chair to sit at home in both formal and informal meeting settings.
