

Designed in-house at New Design Group, PAD is a family of soft seating and tables, perfect for breakout spaces, reception areas and atrium areas.

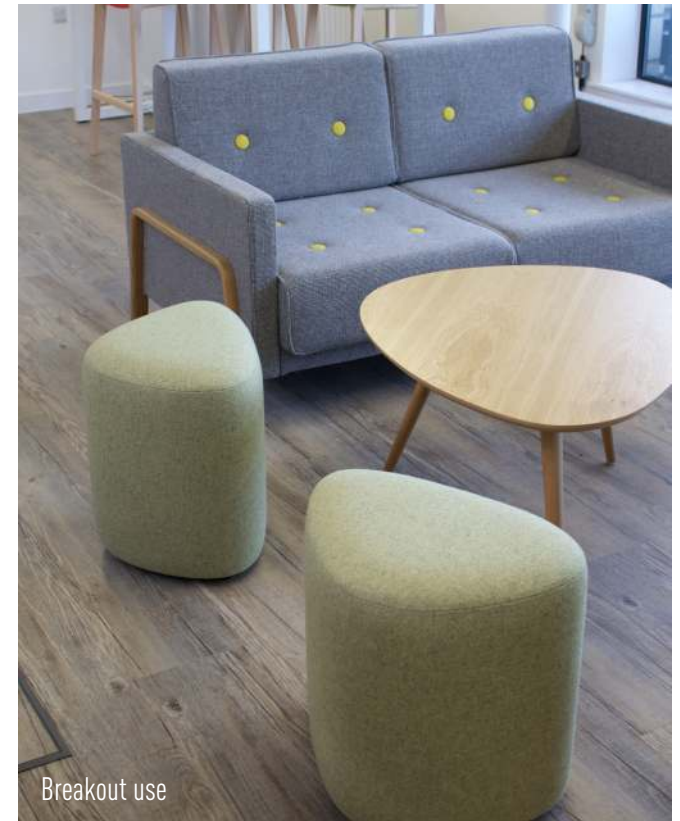

Due to the flexibility of options available in the Pad range, it makes the product perfect for many different markets.

As with all New Design Group soft furnishings, there is an unlimited amount of fabrics that can be used on the product so whether you are keen to stick with a monochrome scheme or add a splash of colour, Pad is perfect for both.

Atrium use

Breakout use

Pad with back

Pad on metal sled frame

Pad with solid wood leg

Sizes

Pad is available in 4 different sizes, A, B, C & D. There are backrests available in 2 different positions on both the C & D sizes..

Base Options

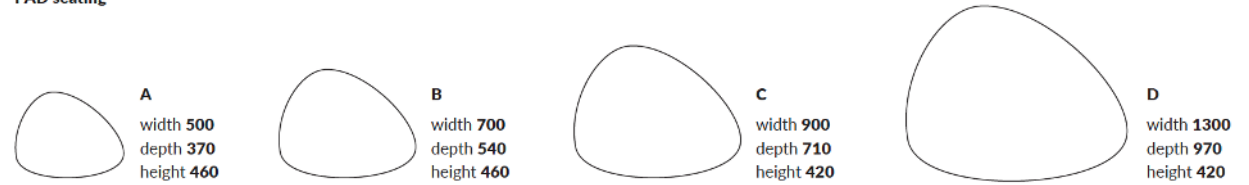

Pad is available as fully upholstered to the floor, on glides, on wooden legs or as a metal sled base. Wooden legs can be stained and the sled base can be powder coated to match your project colour scheme.

Table

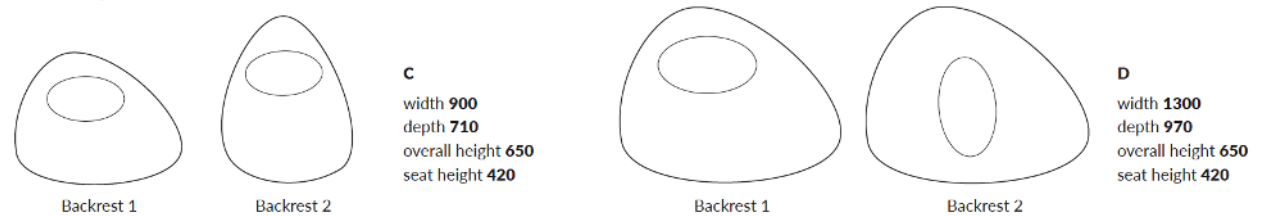

The Pad table top matches the shape of the pad seat. Available in an array of sizes and heights, with either a pedestal base or sled base, the table is the perfect option to create a flexible, agile space.
