The Quiet Booth is designed for comfort and privacy in open office layouts. It is available in single, two, three or four seat versions as well as an extra wide armchair.

The angled end panels provide a private and acoustically beneficial meeting booth. The end panel is also available with a cantilever table to create the traditional booth set up. The sofa is available with or without armrest cushions. Scatter cushions are available in 3 sizes.

Quiet was designed at New Design Group by Martin Ryan & Simon Cahill.
